

MiMo Directional Antenna

WMM8G-7-38-[VAR]

PANORAMA ANTENNAS

WMM8G-7-38

Supports MiMo & diversity across 3G, 4G & 5G

Two wideband elements with gain

Durable wall mount housing

Suitable for mast, wall and desk mounting

The WMM8G-7-38 antenna is a high directional gain 2x2 MiMo signal boosting antenna for 2G, 3G, 4G and many 5G networks. Incorporating two separately fed wideband elements in a single housing the WMM8G-7-38 is equipped to provide client side MiMo and diversity support for 2G, 3G, 4G and many 5G networks. With 6dBi of peak gain at 698-960MHz and 9dBi peak gain at 1710-3800MHz the WMM8G-7-38 provides extra gain for next generation networks.

The rugged, weather resistant housing is designed for wall mounting and wall and mast mount brackets are provided. Supplied with fitted low loss double shielded twin cable the WMM8G-7-38 minimises exposed connector joints and simplifies cable management for easy installation.

The WMM8G-7-38 is an cost effective value added product for network operators and service providers ensuring a stable link with improved data rates for subscribers thereby improving satisfaction and retention.
